### BUILT WITH LOG CABIN MATCHED SIDING

Gives a pleasing rustic appearance to your cabin or cottage. And at the same time provides a sound, tight wall having a planed surface on the inside. Log Cabin Siding is supplied with the three Cottages shown on this page. You also get

### EVERYTHING TO BUILD AS SHOWN

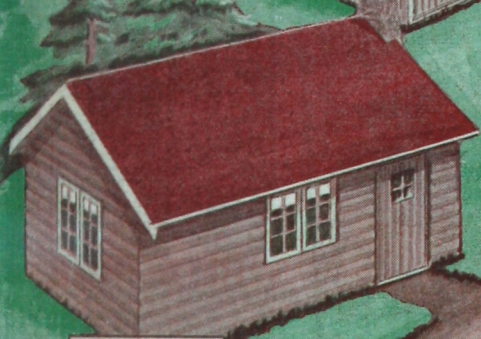

One order; one low price brings you ALL MATERIALS to build the Cottage of your choice. You get dressed Framing Lumber, Log Cabin Siding, Matched Flooring, Veranda materials, Roofing, Paint and Stain for exterior, all outside Doors and Screen Doors, all ready glazed Sash and overall Window Screens; all Hardware and Nails; together with Blue Prints showing details of construction. NOTE: We send Metal Chimney; customer to furnish all materials for stone chimney if desired. Following the usual custom no Inside Doors are figured on for Summer Cottages and no Paint for interior. Veranda Screening Materials if desired are extra. But everything is sent complete to build the Cottage and we guarantee there'll be no "extras" due to shortage of material.

### READY-BUILT - IN SECTIONS WITHOUT BUNKS OR TABLE DEDUCT 5.00

A place to sleep and eat! A roof over your head when it rains. A jolly "hang out" for week ends or vacations. Take "Bunkie Jr." with you on your trailer or have it shipped ahead. Put it up in a few hours. Take it down if you wish when the summer is over; for "Bunkie Jr." is sectional and portable. We also have larger sizes for parties up to 8 persons. ## PROMPT SHIPMENT

### FREIGHT CHARGES PREPAID - NO TAX

Your Summer Cottage will be delivered "tax free" and "freight paid" to your nearest railway station in Ontario; west to Lake Huron, east to Ottawa Valley and north as far as Mattawa, North Bay and Sudbury. Or if your building site can be reached by highway transport we will deliver by truck.

### LOW PRICES - EASY TERMS

Most of our Cottages are purchased on the monthly payment plan. We have arranged the payments to suit professional and salaried incomes, and our deferred terms include Fire Insurance for three years. Owners frequently get a rental income by letting the cottage for part season.

**BUILD YOUR OWN** It's part of the summer's fun to build your own Cottage. Our smaller models are shipped with own framing materials "Ready Cut". And Blue Prints will guide you in construction details. Considering the present low cost of materials and the certainty of getting help at modest wages, the decision to "Build your Own" cottage could scarcely be made at a better time.

# MADE TO MEASURE WINDOW SCREENS

Send your measurements and we will make overall WINDOW SCREENS to fit your windows. The "Full Size" Screen goes on outside like a Storm Window, completely covering the window opening and permitting the sash to be raised or lowered at will. In measuring for "Full Size" Screens take the same measurements as for Storm Windows. Always mention WIDTH FIRST, then height. The "Half Size" Screens are measured from sill to top of "meeting rail" of Sash. We send the necessary "fill in" piece for the top of "Half Screens".

## LOW MADE-TO-ORDER PRICES

## IN-BUILT COMFORT IS THE KEYNOTE OF HALLIDAY SERVICE TO HOME BUILDERS

We suggest that COMFORT is the feature of your new home which, in the long run, will mean most to you. You want your new home to look well; you want it to be conveniently planned; you want to save as much as you can on the cost—but above everything you want the house, when completed, to be a home of all-weather comfort.

## STARTLING IDEAS REVOLUTIONARY METHODS

You'll be astonished at the things Hallidays do to insure all-weather comfort in your new home. Things the ordinary builder never thinks of. Details that are absolutely VITAL to the question of comfort but which are completely ignored in ordinary practice. Crazy ideas! So they seem to those who do not realize that the whole background of home construction has changed and is changing. People are waking up to the fact that comfort is not a happy accident; that it must be made the KEYNOTE of home construction. Only by planning for comfort; only by using the right materials in the right place can all-weather comfort be achieved. And this is the aim and object of Halliday "COMFORTED" construction.

IF YOU PLAN TO LIVE IN THE HOUSE YOU'RE BUILDING, DON'T FAIL TO INVESTIGATE

On old work use a half pint LINSEED OIL per gallon.

## GUARANTEED FIVE YEARS

Because we know the quality that goes into the can we do not hesitate to put this Guarantee on the label. All we ask is that you read and follow the simple instructions on the label. Do this and we guarantee the results, for FIVE YEARS. To us this means keeping up the highest standards of quality. To you it means guaranteed results, lasting protection.

## HOW MUCH PAINT TO ORDER

"Purity" House Paint will cover about 350 square feet per gallon, TWO COATS, on new, clean work or over old paint in fair condition. On weather-beaten rough surface about 300 square feet. To find number of gallons needed for a frame house take the distance in feet around your house, multiply by the height to eaves, plus 2 feet for cornice. Now divide by 350 or 300 depending on the condition of the surface. The result will be the number of gallons required. Trim color can be estimated at one gallon to every five of body color.

FOR SUITABLE BRUSHES SEE PAGE 9

# GET RID OF MOTHS

Tennessee Aromatic Cedar Lining defies the moth. NO MOTH, EGGS OR LARVAE, can live in a closet or chest lined with Aromatic Cedar. Ordinary Cedar is useless. The wonderful Aromatic Oil of Cedar is found only in the red heartwood of the cedar log. It is the aroma or fumes from this oil that is deadly to the moth. Therefore, we offer only genuine AROMATIC Tennessee RED Cedar containing 90 PER CENT OR MORE HEART WOOD.

## SUPER-CEDAR CLOSET LINING

Protect Furs, Woollens, with Tennessee Super Cedar Lining. Line your clothes closet (including door) also trunks, chests, cupboards. Easily applied because each piece is tongued and grooved at ends and sides.

**NEW OAK STEPS - 98c**

It's much easier than you think to make those  
old, worn stair steps look like a new oak stair.  
A thin piece of oak to cover the tread;  
a special mould for the nose; a cove and another  
thin piece for the riser. Just trim these the  
length you want and nail them in place. Size  
sent will fit almost any ordinary  
step, with slight trimming.

**COMPLETE WITH MOTOR**

**DEPTH OF WELL**  
Pumping Systems on this page are for "shallow wells" or cisterns, not more than 22 feet from pump to low water level. If your water level is lower than this please write for our price on "deep well" outfits.

## LATEST ELECTRIC PUMP 69.75

North Zone.....70.50

**FRESH WATER SYSTEM**

With this new system practically no water is held in storage. It is pumped as required and comes direct from well or cistern each time you open a tap. The complete pumping unit occupies floor space barely more than two feet square, and will operate off an ordinary lighting circuit. The automatic switch "cuts in" and starts the pump the moment a tap is opened or the closet flushed. A splash oiling system insures proper lubrication. The system is simple, quiet and positive in operation.

**FOR WELLS 22 FEET DEEP AND LESS**

34-2400—Fresh Water SUPPLY SYSTEM as pictured and described above; capacity, 250 gallons per hour. Suited for ordinary household requirements of 5 to 7 persons. Price with 60 cycle A.C. Motor, 1/6 H.P. **69.75** Price with 25 cycle A.C. Motor, 1/6 H.P. **73.50**

NOTE.— $\frac{1}{4}$ " Suction and  $\frac{3}{4}$ " discharge piping must be ordered extra with necessary fittings.

The problem of sewage disposal is settled by the Septic Tank System. Raw sewage flows into the tank and thence out through a disposal bed made of field tile about 18" underground.

**CHEAP AND EASY TO INSTAL**

No skilled labor needed. Anybody can instal a SEPTIC TANK SYSTEM of sewage disposal, following directions which we will send free on request to intending purchasers. Once properly installed the System requires no attention or upkeep. Our TANKS are made of "copper bearing" steel coated inside and outside with asphalt enamel. We quote below the two sizes most called for but on request shall be pleased to quote larger sizes for Schools, Tourist Camps, etc.

**READ DESCRIPTION OF PUMPS BELOW**

Reasonable prices! The "LOW COST" Pump is suited for ordinary house and farm supply, hand pump only. The "FORCE HEAD" Pump has easy-working head, wood handle, adjustable stroke (8" or 8"), brass-lined cylinder, and hose connection. If wanted for windmill or engine power add 30c for power bar. The "THREE WAY" Pump is fitted with cock in spout. Water may be taken at the spout or may be forced through hose, or, by closing the cock, water may be forced through overhead piping connected to outlet on top of spout. This spout outlet is tapped for 1 1/2" pipe but by using a reducing bushing 1 1/2" or 1" discharge pipe may be connected. Hose connection supplied free. The "HEAVY DUTY" Pump is intended for hand power only in shallow wells (25 ft. deep and less).

**PRICE OF PUMPS FITTED FOR YOUR WELL**

Prices below show the cost of any of above pumps complete with Galvanized Pipe (cut to length) threaded, with couplings, ready to screw together, and drop in your well. "Depth of well" means distance from platform to low water level. Pumps for 20 ft. and lower have cylinder about 12 ft. from bottom of pipe. Fitted lengths always 6" short to allow clearance.

## PRIME GRADE MAPLE THREE-EIGHTHS INCH THICK

At this reasonable price we offer the pick of Northern grown MAPLE FLOORING, practically clear of knots or surface imperfections. Known as "PRIME GRADE" which includes the two top grades, No. 1 and No. 2 mixed. Made from half-inch boards, dressed to a finished thickness of three-eighths inch. Machined with a smooth, hard finish; tongued and grooved at ends and sides. Good lengths for easy laying. This is known as "veneer" flooring because always laid over old floors or sub-floors. Directions for laying and finishing sent.

## SOUTHERN OAK

Just as the best Maple and Birch come from the North, so the best OAK for Flooring purposes comes from the Southern States. Ours is imported in "the rough" and run into Flooring in Canadian Mills; then shipped direct to you at "Factory Distributors" prices, freight paid and tax free. No wonder our prices are most reasonable!

### MOST POPULAR GRADE

Here we offer you genuine Southern OAK FLOORING in the popular "Second" grade which lays a fine looking floor practically free of knots or blemishes. The boards are all three-eighths inch in thickness; tongued and grooved at ends as well as sides; and in good lengths. Intended for laying over a sub-floor or on top of old worn flooring.

### AND A LOW PRICE
